TEACHERS' ASSOCIATION.

Meeting at Bellairs, Saturday.

The Southern Ohio Teachers' Association held its third session at Bellairs, September 28th.

The meeting was called to order by Prof. Regal, Chairman of the Executive Committee, and the exercises were opened by prayer, by Rev. —, of Bellairs.

The President elect, Mr. Burns, of St. Clairsville, was introduced and read a paper entitled "Human Nature." The subject was discussed with special reference to the teacher's duty, and the importance of studying the child's nature was very clearly presented.

The speaker thought instruction the worst vice which could be fostered in the school room. Next followed exercises in calligraphy, and a song by the girls of No. 8 of the Bellairs public schools, conducted by Miss Greenleaf.

The association then adjourned until half-past one. A committee of one hundred persons was in waiting to receive the members and welcome them to the hospitalities of Bellairs. As every one of the committee seemed determined to entertain five or six guests, it was somewhat difficult to supply all from a company of one hundred and twenty teachers.

AFTERNOON SESSION.

The Association re-assembled at 1 1/2 p. m. in the Presbyterian Church.

Mr. McConry, of Cambridge, read a paper on "Discipline as contrasted with cramming," his argument tending to show that the discipline of the mind was of more importance than the mere acquisition of knowledge.

Mr. Morton, of Wheeling, was strongly in favor of practical studies. He thought a boy should learn to write a letter before he takes up Geometry, Trigonometry, &c.

Miss Sutherland, of Steubenville, read an essay on "A day's work and a day's wages." It gave a high idea of a teacher's work and according to the ideal the standard of wages was too low for the work done.

Rev. Geo. P. Hays, President of Washington and Jefferson College, delivered an address on "Educational Failures," the same which he delivered in this city last winter.

A paper was read by M. R. Andrews, superintendent of the Southern Ohio public schools on "The Extent and Character of the Teaching of Natural Science proper to be given in the grades below the High School."

As the time for the return train had almost arrived, discussion on this subject was deferred until the next meeting of the Association.

Prof. Regal presented his resignation as chairman of the Executive Committee, on the ground that he was inconveniently located for transacting the business of the Committee.

It was also announced that Mr. Page, of the same Committee, had removed to another part of the State.

The President appointed Mr. M. R. Andrews to fill the vacancy caused by the resignation of Prof. Regal, and Mr. McConry in place of Mr. Page.

On motion of Mr. M. R. Andrews, votes of thanks were tendered to the citizens of Bellairs for their hospitality, to Dr. Hays for his excellent address, and to the officers of the Association for the efficient manner in which they had discharged their duties.

The time for the departure of the train having arrived, the Association adjourned.

The time and place of the next meeting of the Association will be announced by the Executive Committee.

The Steubenville teachers with one or two exceptions returned home in the evening.

There were also present a number of teachers from Wheeling.—Steubenville News.

THE HENRY NEW YEAR.—At sunset this evening the Hebrew year 5633 will have expired and the new year 5634 begin. The new year's day of the Hebrews is the first day of the seventh month Tishri, and is called the beginning of the sacred year, which dates the creation of the world, according to the biblical accounts, and is distinguished from the civil year, which begins on the first Hebrew month Nisan, which dates from the formation of the Hebrews as a nation. Upon the New Year, (Rosh Hashanah) also called the day of judgment, (Yom Hadin), the ram's horn is blown, which is to remind the Israelites of the relation which he has made to his Maker. It is observed with great solemnity, the reformed party among the Hebrews observing it but one day, while the orthodox celebrate it two days. The ceremony of blowing the horn is based upon Leviticus, 23rd chapter, 24th verse, "Speak unto the children of Israel, saying, in the seventh month, on the first day of the month, shall ye have a Sabbath, a memorial of blowing trumpets, an holy convocation." The week preceding the new year is a week of penitence, designed as a preparation for the New Year and Day of Atonement, which takes place on the tenth day of Tishri, or the 13th day of October, in this year. This is the most solemn day of the Israelites, and is devoted by them from sunset to sunset the next day to prayer and fasting. The synagogues upon this occasion are overcrowded. The observance of that day is based upon Lev. 23rd chapter, 27th verse, "Also on the tenth day of the seventh month there shall be a day of atonement; it shall be a holy convocation unto you, and ye shall afflict your souls and offer an offering made by fire unto the Lord."

The best last child began on the 10th of September 1871, and had, consequently, 383 days, 58 Sabbaths, and 13 months. The year which commences this evening will end Sept. 21, 1873.

THE BOAT RACE.

The Match Made—Hagner's Challenge Accepted—Race to Come off on the 10th at Pittsburgh.

The match between Kennedy and Hagner which has been the all-absorbing topic in sporting circles for some days, is at last made and the preliminaries arranged. The challenge which was published by Hagner in the INTELLIGENCER of yesterday, brought the men and their friends together at Paul Heller's saloon, in South Wheeling, last night, to draw up the articles. A large crowd had gathered, comprising the friends of both men in about equal numbers. To expedite matters, Messrs Kennedy and Hagner, with six of their friends, withdrew into a separate room and calling in a secretary, they commenced operations. The first thing to settle was the amount they were to row, this was soon fixed at \$1000. Next came the knottier question of the course to be rowed over, which, after a deal of talk was finally decided by selecting the upper Monongahela course at Pittsburgh. But the next question was the rock upon which they came near splitting. That was the kind of boats to be used. Hagner and his friends insisted on single scull working boats, and Kennedy and his friends urged full as strenuously that single scull boats be used. After a good temper but exciting discussion of nearly three hours the Kennedy men finally gave way, and the race was made in accordance with Hagner's challenge.

It will be a matter of no little regret to many of our citizens that the race is to take place so far away, as there are many thousands of people in this vicinity who would greatly like to witness it. Below will be found the article of agreement as drawn up and signed by the principals by their respective friends:

Article of agreement entered into this 1st day of October, 1872, by and between Mallon Kennedy, of Benwood, West Virginia, and John Hagner, of Wheeling, West Virginia, to row a single scull working boat race, on the upper Monongahela course, at Pittsburgh, Pennsylvania.

1. The race shall be five miles, two and one half (2 1/2) miles and return.

2. The said race shall be rowed on Wednesday, the 10th of October, 1872, between the hours of 1 and 3 p. m.

3. The weather and water are to be unfavorable, the race shall take place between the same hours on the next fair day, (Sunday) excepted.

4. There shall be two turning stakes, 75 feet apart, each man to turn his own stake from right to left, the positions to be drawn for by the respective judges.

5. Each man shall be entitled to two judges, and judges to choose a referee on the day of the race, and his decision in all cases shall be final.

The boats shall be started by the word "Go," by the referee. After receiving the regular and proper caution either boat, swerving from a direct course so as to impede the progress of the other boat, shall be declared fouled. The boat having a clear lead between stem and bow, shall have the right of way.

6. The sum of \$1000 a side is this day deposited in the hands of August Weidenschel. A second deposit of \$300 a side shall be made on Saturday the 5th inst., between the hours of 1 and 3 p. m., at August Weidenschel's saloon, when a final stakeholder is to be chosen. The final deposit of \$300 a side shall be made on Saturday the 12th inst. Either party failing to make the deposits as above stipulated, shall forfeit the amount already paid.

MANOR KENNEDY per JOSEPH WILSON, JOHN HAGNER per WILLIAM ZIMMER, Witnesses—John Z. Moore, B. F. Tracy, Samuel Simmons, Theo. Schulz.

THE popular Dry Goods house of Henry Brues will have their grand gas-light opening and exhibition of fine Dry Goods next Friday evening.
